

EPSC Learning Sheet

Tijs Koerts, EPSC Operations Director, Papendrecht, The Netherlands

Ditmar Nachtigal, BASF SE, Ludwigshafen am Rhein, Germany

The industry still experiences serious incidents and near misses. It is important to effectively learn from these events to avoid reoccurrence. EPSC Learning Sheets are designed to make companies aware of hazards. Using the wide European industrial platform and discussing the relevant aspects of typical accidents, awareness of the risk and understanding of the best available technologies for prevention is being created. It will be explained how you can benefit from this.
